

Tone your butt while you walk your dog

That's right, butt-toning dog walking shoes

Join the crusade against the restrictive, unnatural nature of shoes with MBTs, anti-shoes which replicate the rolling action of walking on natural, uneven surfaces—something hard to find in today's concrete-covered urban jungle.

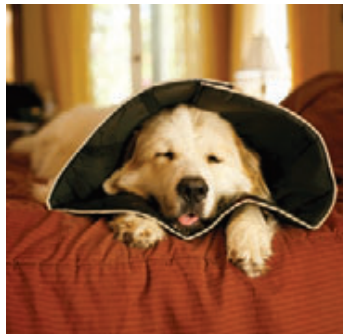

With curved soles and an unstable surface for your feet, MBT's can help solve knee and back problems, ease joint pains, burn more calories, and firm your butt and thighs.

They are being called the antithesis of a shoe... We just think it's an awesome way to share the benefits of a nice, long walk with your dog. He gets to burn off more energy, and you get a nicer butt. It's win-win. mbt.com

COOL THING Dry Dog

Keep winter weather outside where it belongs with the Air Force Quick Draw. At just 3 pounds, this dog dryer is portable and easy to use, yet powerful enough to quickly dry even a large, long-haired puddle lover. Just think, no more soggy dog-towels and damp couches! \$130, dogdryer.com

Convalesce in comfort!

Gone are the days of hard, rigid plastic cones. The Comfy Cone post-surgery recovery collar allows Rex to be comfortable while preventing him from irritating wounds or skin disorders. \$12 - \$27, buschpetproducts.com

Resource for Guardians of Three-legged Dogs

At tripawds.com they're spreading the word: loosing a limb is not the end of the line. As their motto states, "better to hop on three legs than limp on four." The site

is a great community and resource guide for "tripod" pet guardians, those who have a dog facing an amputation, or anyone considering adopting a three-legged pal. Search, blog, post pics, read inspiring stories, and more.
